

Sleep medicine course

The 2-year Sleep School organized jointly by the Universities of Helsinki and Turku, in cooperation with Nordic experts, will provide overview and practical tools for physicians, nurses, psychologists and researchers in the field of sleep medicine and sleep research. CME credits will be applied from the Universities of Helsinki and Turku.

The course combines high quality expertises in sleep research (Sleepwell research program at Helsinki

University Medical Faculty) and clinical sleep medicine (Sleep and Breathing Centre at the Turku University Hospital). The teachers are internationally recognized experts on their respective fields, and

experienced educators. The curriculum has been created and evaluated in reference with the recommendations of the EACCME.

Aims of the course: The course “Sleep medicine” will provide the participants overview on sleep medicine and practical tools for professionals and students in the field.

Target audience: Medical doctors, nurses, psychologists and other health care professionals working in fields where patients have sleep problems, as well as students and researchers of these fields.

Methods: The course is an e-learning course. The lectures will be given once a month on Wednesday at 16.00–18.00 h. Time allocated for each presentation is 60 min. Legal aspects included in presentations when applicable. The lectures will be offered through Zoom-link (please, see below). Registration for the course is not needed.

Further information: No exams. Upon request, you will receive a certificate of attendance in the end of the semester if you have attended the lectures (tiina.harkonen@helsinki.fi). Please rename yourself in Zoom with first name + last name (do not use nickname/user ID/student number/just first name). Possible changes in the curriculum will be informed at <https://www2.helsinki.fi/en/researchgroups/sleepwell/sleep-school> and at <https://www.tyks.fi/tietoa-tyksista/tyksin-organisaatio/huippuosaamisyksikot/tyks-uni-ja-hengityskeskus/tietoa-0>

Topic: Sleep Medicine Course
